LabNewsPages

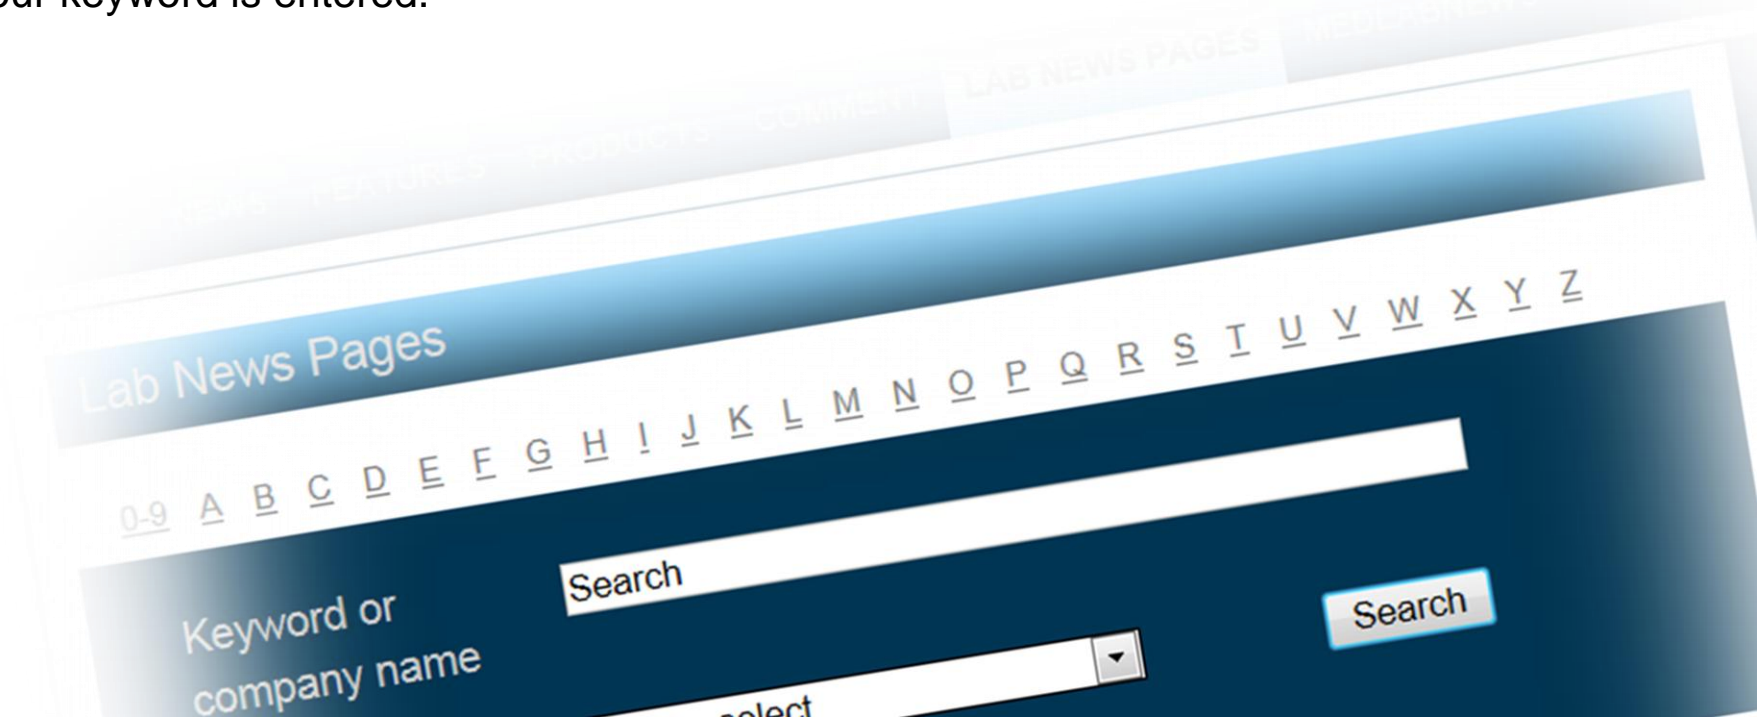

It's all about the search...

The Lab News Pages online directory contains listings from over 850 companies – all of whom supply UK laboratory scientists.

As the largest independent directory of lab suppliers, Lab News Pages puts your company in front of buyers as they search for suppliers.

By utilising keywords specific to your company you can target buyers with a specific message right at the point when they are buying. Lab News pages offers three distinct packages to suit your budget, all of which deliver a banner, skyscraper and a flash/video animation to the screen the moment your keyword is entered.
